Mike,

I have reviewed PolRep#1 and the website.

They are approved for public release.

My suggestions (take'em or leave'em) are that you; (1) be sure to spell out each acronym the first time it is used (e.g., ATSDR), (2) double check each photograph to make sure nothing sensitive is depicted (e.g., students, contractors not wearing PPE), and (3) add ATSDR to list of contributing agencies / review list for completeness.

Subject: Draft POLREP and Website - Hood Mercury Response

Hey Wes:

Can you please look over the attached POLREP for the Hood Mercury Response and let me know if you have concerns. Also, please look over the website in general and let me know if you have questions/concerns.

POLREP: http://www.epaosc.org/site/sitrep_profile.aspx?site_id=9147

Website: http://www.epaosc.org/site/site_profile.aspx?site_id=9147

All parts of the website are currently marked “private” right now, including the POLREP. I will make all or parts of the website/POLREP “public” with your approval.

It is important to note that this site is getting quite a bit of media attention here (and to some degree, Statewide).... It is still front page news for Odessa. It does not seem controversial however, there are some opinions in today’s Odessa newspaper that have stated EPA has “over-reacted”

Please call or email me with any questions/concerns.... I won’t make anything public without management approval.

Thanks, Wes.
